

Solare Guide to Wine, Beer, Spirits, & Cocktails

Ciao! Here is what we do with wine, beer, and cocktails at Solare. We do not post our wine/beer/spirits/cocktail menus because they change almost every day. But this Guide shares with you our philosophy.

Wine

We have a deep selection of wines to complement the amazing dishes that Chef Accursio and his team creates. We have over 2000 bottles representing almost 200 labels. Our wine strategy is as follows: 75% of our wine is from Italy, and we have wines from all 20 regions. The remaining 25% is West Coast North America: Washington State, Oregon, California, and Baja California. That's it! It's not that we don't like Spanish or Australian wines – we do! – it's just that we want to focus.

Beer

We love craft beers and have a solid list ranging from the beer scene here in San Diego to the fast growing craft beer boom in Italy. Carefully selecting excellent offerings of the best breweries, we seek to provide the range and quality selection of beers that San Diegans have come to expect. Whether seeking a bottle conditioned Belgian or a fine adventure down San Diego hop lane, we carefully select the flavors that you know and love.

Spirits & Cocktails

We are lucky here at Solare as we have a truly gifted mixologist (Tommy!) driving our plan and actions. For spirits, our focus tends to be in three areas: Agave with Fortaleza Tequila and well chosen selection of Mezcal and Raicilla. The other loves are Whiskey and Gin where we have an eclectic menu of rare finds and proven standards.
